

TACTICAL .22 RIFLE: August 22, 2009

For the August 22 shoot, the top three shooters (wait a minute, there were only 3 shooters!):

Yours Truly - 468.093

David Williams - 376.282

Steve Jones - 299.951

The numbers after the decimal point reflect the size of the 50 yards 5 shot group and is used to break ties. Now, before everyone gets excited to think I shot a .093 inch 5 shot group with a .22 LR from a prone position, calm down. My group was a 1.093". The group being over 1"; in size subtracted 1 point from my score. Same for David.

Steve Jones shot the best group with a real .951. Not bad from a Colt M4 .22 LR with a 5x scope!
